

DRAFT AGENDA

California Wadeable Streams Biostimulatory and Biointegrity Amendments

Stakeholder Advisory Group Meeting

July 26, 2017 9:00 am to 3:15 pm

SCCWRP, 3535 Harbor Blvd., Suite 110, Costa Mesa CA 92626

TELECONFERENCING INFORMATION AT THE BOTTOM OF THE AGENDA

Note: Please RSVP if you will attend in-person to Christina Rivas (christinar@sccwrp.org)

Meeting Goals:

- 1) Discuss Technical Team response to Science Panel findings re: Biostimulatory – Biointegrity Science Plan
- 2) Discuss stakeholder feedback on preliminary model to predict bioassessment index scores across gradient of development in California landscapes
- 3) Discuss biological condition gradient preliminary findings and technical team and stakeholder perspectives on potential applications
- 4) Discuss preliminary findings and stakeholder feedback on algal stream condition index development
- 5) Discuss stakeholder perspectives on the tenets of a watershed approach

9:00– 9:15 am	Welcome, Introductions, Meeting Goals and Review of Agenda-Nick Martorano and Jessie Maxfield (SWRCB)
9:15– 10:30 pm	Discuss biological condition gradient preliminary findings and technical team and stakeholder perspectives on potential applications <ul style="list-style-type: none">• Summary of project goals, approach and draft model (Michael Paul, Tetra Tech)• Science Panel feedback and Tech Team response (Raphael Mazor, SCCWRP)• Stakeholder feedback on BCG and potential applications (Brock Bernstein, independent facilitator, all)
10:30– 12 pm	Discuss stakeholder feedback on preliminary model to predict bioassessment index scores across gradient of development in California landscapes (a.k.a. Channels in Developed Landscapes) <ul style="list-style-type: none">• Summary of project goals, approach and draft model (Raphael Mazor, SCCWRP)• Stakeholder feedback on model and potential applications (Brock Bernstein, independent facilitator, all)
12 pm – 12:30 pm	Catered (working) lunch (\$10)
12:30 – 1:30 pm	Discuss preliminary findings and stakeholder feedback on algal stream condition index development (Susie Theroux, SCCWRP) <ul style="list-style-type: none">• Summary of project goals, approach, draft model, and science panel feedback (Susie Theroux, SCCWRP)• Stakeholder feedback on ASCI (Brock Bernstein, independent facilitator, all)
1:30 – 2:30 pm	Discuss stakeholder perspectives on the tenets of a watershed approach (Tom Grovhoug, LWA)

2:30– 3:00 pm Technical Team Responses to other Science Panel findings (Raphael Mazor and Martha Sutula, SCCWRP)
3:00 – 3:15 pm Next Steps and Adjourn
